

# Healthy Habits for Your Professional Success in 2024

At the beginning of every new year, there is always an influx of articles, blogs, and news reports that speak to the new health and wellness activities we should consider as part of our New Year resolutions.

Popular recommendations include drinking more water, ramping up your cardio routine, taking on a new activity like yoga, cross-training, or stretching, the list goes on...

Here in [The Network](#), we're obviously not qualified to give you health advice, but we can shed some light on activities and resources that are designed to help you be successful with your Trimble Viewpoint solutions. We've compiled a list here for you:

1. **Monthly Webinar Digest** – This monthly email publication details all upcoming webinars. From product how-tos to thought leadership topics, webinars are a great way to stay up-to-date on Trimble Viewpoint products and services.
2. **Customer Success Bulletin** – Our quarterly bulletin is designed to make sure you are aware of the activities, information, updates, and trainings that are available to you at Trimble Viewpoint. We will also highlight recent happenings in our [Customer Success Programs](#), Viewpoint Academy, Viewport Customer Portal, and of course, The Network. Our first issue of 2024 will be sent out on January 26, 2024, and you can find past versions of the bulletin [here](#).
3. **Viewpoint Academy** – Are you looking for training or certification programs? Head to the [Viewpoint Academy](#). You will find quick tips to improve your workflows, learning plans that guide you through role-based training programs, live instructor-led courses and certification programs designed to make you the expert your company needs.
4. **Customer Portal** – The [Viewpoint Customer Portal](#) is your one-stop for support and product knowledge. You can chat with a support specialist, open a support ticket, troubleshoot technical issues, download the latest releases, access product resources, and much more. An authorized user at your company can set up your

account in the Customer Portal, or you can use these [detailed instructions](#) to add or edit users.

5. **Viewpoint Help** – [Viewpoint Help](#) gives you access to the latest, comprehensive product documentation, articles, and videos for all our Trimble Viewpoint products. Articles are easy to share and socialize, and you can print or create PDFs of individual Help articles or entire sections of content.
6. **Technology Huddles** – Each quarter, our product experts show you what’s new and what’s coming for Spectrum, Vista, and Construction Operations in our Technology Huddle webinars. In addition to a demo, they always leave time to answer your questions. And, we continue the conversation in The Network after the fact. You’ll find a dedicated discussion category for each Technology Huddle so you can review the Q&A, view the webinar recording, and ask our product experts additional questions. You can register for these webinars here in The Network or through the monthly webinar digest.
7. **Workshops** – Are looking for a more informal, roundtable-style session to learn how to get the most out of your Trimble Viewpoint products? Try one of our product expert-led Workshops. Each workshop session is designed to answer your questions and help you learn about product-specific features. Right now we are offering workshop sessions for [HR Management for Spectrum](#) and more are planned for 2024, so stay tuned!
8. **Trimble Viewpoint Blog** – [The Trimble Viewpoint blog](#) is packed full of industry knowledge delivered weekly. [Be sure to subscribe](#) to get the very latest product and enhancements information, along with industry news.
9. **On-Demand Webinar Library** – We’ve recently built out a [Trimble Viewpoint On-Demand Webinar Library](#) that houses all our webinars that have aired in the last year, including the 2023 Year-End webinars. These webinar recordings are organized by category so you can easily find any past webinars that you would like to review. This library also links to our [Upcoming Webinars](#) so you know what’s on deck.
10. **The Network Upcoming Webinar & On-Demand Webinar Channels** – If you haven’t checked it out yet, go to the [“Activities” tab](#) in the main navigation of The

Network and click on the [“Webinars On-Demand” channel](#) or the [“Upcoming Webinars” channel](#). These channels promote all product, educational, and thought leadership webinars, allowing for quick and easy registration. On-demand webinars are also available for you to view as often as you would like. If you have a colleague you believe could benefit from one of the webinars, feel free to send them the webinar URL so they can view it as well.

Lastly, if you are not currently receiving one of the email publications listed here but would like to, please visit our [Subscription Center](#) and update your preferences. And, if you have questions about any of the resources listed here, please email us at: [thenetwork@trimble.com](mailto:thenetwork@trimble.com).
