

Moving to the Cloud: What You Should Know

The **ProContractor Suite**, hosted in the cloud, is designed specifically to address the needs of small-to-mid-sized contractors, with mobile enabled end-to-end control by the industry's only all-in-one Estimating, Project Management and Accounting solution. The ProContractor Suite is an accessible, easy-to-use, secure and fully managed solution with a low IT burden.

Critical Business Concerns	Benefits of the Cloud Hosted ProContractor Suite	
Security	<ul style="list-style-type: none"> • 24/7/365 in-house Security Operations Center (SOC) • Ransomware resilient due to backups • Vulnerability scanning & antivirus • Intrusion & endpoint detection & response • On-call crisis management & forensics 	<ul style="list-style-type: none"> • Independent third-party security assessments*: <ul style="list-style-type: none"> ◦ Certifications & SOC compliance ◦ ISO 27001 • Possible cybersecurity insurance reduction
Hardware	<ul style="list-style-type: none"> • Automatic updates • Upgrade management 	<ul style="list-style-type: none"> • No server costs or maintenance • Reduced IT footprint
Software	<ul style="list-style-type: none"> • Single platform ERP • Scales with company growth • Automatic updates & patching 	<ul style="list-style-type: none"> • Construction-specific • Intuitive navigation • Alert-style tasks
Business Processes	<ul style="list-style-type: none"> • Project visibility • Minimize redundancy 	<ul style="list-style-type: none"> • Project forecasting • Predictable outcomes
Data	<ul style="list-style-type: none"> • Real-time data • Hourly encrypted VM image backups replicated to multiple datacenters 	<ul style="list-style-type: none"> • Self-serve reports • Data migrated from on-premise
Customer Success	<ul style="list-style-type: none"> • Dedicated Customer Success Manager • Viewpoint Customer Portal 	<ul style="list-style-type: none"> • Viewpoint Academy • The Network

Transformation Process

Kick-Off

- Verify integrations, including third party

Infrastructure Setup

- Environment ready
- Activate ProContractor licenses
- Cloud training information & credentials sent to customer

Go Live

- Data is migrated
- No major changes to employee interaction
- All ProContractor Suite modules (Accounting, Estimating and Mobile) are unlocked
- Handoff to customer

Post Go Live

- **Security:** Data snapshots are stored in Microsoft Azure snapshots, and SQL backups are stored in Microsoft Azure storage accounts in Blob. Backups are scheduled with enough frequency to allow recovery of your data within one hour.
- **Hardware:** Without Trimble Viewpoint servers to maintain, free up valuable resources to apply to higher value activities.
- **Software:** Continue using the ProContractor Suite, while exploring new modules.
- **Business Processes:** Access the ProContractor Suite anywhere, anytime with an internet connection, allowing people to get their work done from where they are, from the office to the job trailer.
- **Data:** Discover insights with a secure data analytics platform including dashboards and reports.
- **Customer Success:** Professional Services helps with remaining Viewpoint integrations. Plus, a dedicated Customer Success Manager provides support for six months after Go Live.

About Trimble Viewpoint

Trimble Viewpoint construction software solutions, part of Trimble Connected Construction, allow contractors to better manage their projects, processes and people, using the data gathered to lower risk and improve margins. With more than 40% of the ENR 400 on our platforms, Trimble Viewpoint innovations are transforming the construction industry by connecting operations across financial and HR systems, project management tools and mobile field solutions.
