Transformation Process

Kick-Off & Data Upload

- Verify integrations, including third party
- Set Go Live date

Infrastructure Setup & Data Migration

- Migration is performed to fit your schedule
- Minimal downtime, no reimplementation

Customer Validation & Testing

- Trimble Viewpoint's dedicated Transformation team handles any testing concerns

Go Live

- Three to eight weeks from point of sale
- Data is refreshed
- No major changes to employee interaction
- All ERP modules are unlocked
- Cloud-only features are accessible, like On-Demand Licenses, Single Sign-On, Multi-Factor Authentication & Viewpoint Analytics
- Handoff to customer

Post Go Live

- **Security:** Data is backed up in three geographically diverse facilities. Backups are scheduled with enough frequency to allow recovery of your data within one hour.
- **Hardware:** Without Trimble Viewpoint servers to maintain, free up valuable resources to apply to higher value activities.
- **Software:** Continue using Trimble Viewpoint's ERP, while exploring new modules and cloud-only features.
- **Business Processes:** Access Trimble Construction One anywhere, anytime with an internet connection, allowing people to get their work done from where they are, from the office to the job trailer.
- **Data:** Discover insights with a secure data analytics platform with dashboards and web-enabled reports.
- **Customer Success:** Professional Services helps with remaining Viewpoint integrations. Plus, a dedicated Customer Success Manager provides support for the first year after Go Live.

Viewpoint, a Trimble Company (NASDAQ: TRMB), is a leading global provider of integrated software solutions for the construction industry. Viewpoint software enables customers to integrate operations across the office, team and field to improve project profitability, enhance productivity, manage risk and effectively collaborate across the broad construction ecosystem. With nearly **8,000 clients**, including **more than 40 percent of the ENR 400**, Viewpoint's innovations are transforming the construction industry by fully integrating operations across financial and HR systems, project management tools and mobile field solutions.
